

ENACT is designed for general cleaning and disinfecting areas where housekeeping is of prime importance. In addition, **ENACT** deodorizes and keeps them smelling fresh.

DIRECTIONS FOR USE:

DISINFECTION: To disinfect hard inanimate surfaces (such as walls, floors, table tops), apply solution with mop, cloth, or sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

DILUTION RATES: General Disinfection - add 2 ounces **ENACT** per gallon of water. Hospital Usage: add 3 ounces per gallon of water. To disinfect toilet bowls, flush toilet, add 2 ounces **ENACT** directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush. For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT: To control mold and mildew on hard non-porous surfaces (such as floors, walls, table tops) clean surfaces then add 2 ounces **ENACT** per gallon of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

Additional Information

ENACT is an industrial strength all purpose cleaner designed to disinfect and eliminate foul odors caused by germs, bacteria, urine, grease and grime. **ENACT** is highly concentrated allowing dilution rates up to 64:1 (2 ounces concentrate per gallon). This heavy duty formula will tackle even the toughest job. Use in public restrooms, showers at public pools, stadiums, arenas, portable toilets or in areas where loiterers and animals defecate **ENACT** is effective for controlling mold and mildew while removing any musty odor caused by the growth. Many bathroom cleaners lose their cleaning power when poured into bowl water, but **ENACT** is a concentrate specially designed to work better when diluted. Use **ENACT** on all hard surfaces such as: walls, counter tops, sinks, basins, tubs, showers, toilets, urinals, tile, partitions, chrome, chairs, telephones, door knobs, etc. With **ENACT** you no longer need multiple products to maintain hard surfaces, this one product is effective on all of these surfaces and more. This concentrated formula is ideal for use with an **AIS Mixing Station System**. This system pre-dilutes the cleaning products for you assuring proper mixture and eliminating cost overruns due to improper use of materials. Contact your salesrep for more detailed information on how we can reduce labor through increased product performance while maintaining low material expenses with an AIS Mixing Station System.
